trucks

■ **MC 30 T**

## A reliable, productive yard truck

- Capacity 3000 kg
- Lifting height 3 m to 7 m
- 2 wheel drive
- Motorization Turbo Euro III

\* Model presented with its options.

 **MANITOU**

# MC 30: A reliable, productive yard truck

*Specially designed for outdoor handling applications, the MC 30 T makes managing your storage area easier. Handle and store with full peace of mind and easily handle and store loads up to 3 tons, even on unconsolidated ground.*

## • The MANITOU solution for outdoor handling

Ideal for loading lorries and storage yards, the MC 30 T makes the operator's life simpler, due to its distinctive features: a wide track for improved stability, a high ground clearance for travelling over kerbs or other obstacles, full visibility, rugged mast for safety, quick and safe cab access, ergonomic controls for improved manoeuvrability, and high travelling speed (24 km/h) for higher efficiency. In addition, because of the stability of the MC 30 T, the operator can safely access the most unstable areas of the site and quickly put the load into place.

## • The experience of versatile handling

Already widely acclaimed for its unmatched performance, the MC 30 T is suited to any kind of handling: in narrow alleys, it proves outstandingly manoeuvrable due to its short turning radius; for storage at a height, it can be fitted with up to 7-metre masts; it has a hydraulic differential lock as standard which allows it to travel through difficult areas.

The MC 30 T is indispensable, whatever your activity.

## • The assurance of rugged design

The MC 30 T, and the MC range in general, is the result of continuous interaction between MANITOU's design office and the users. The components have been designed for use in the most arduous conditions

The Perkins 1104 D 44 Turbo – 4-cylinder direct-injection engine has been chosen for its performance and reliability. It develops 95 hp/70 kW at the rated speed of 2200 rpm and conforms to the Euro III standard. In addition, the MC 30 T is fitted with a torque converter transmission and a 4-ratio gearbox, so that the user can choose between driveability or speed of travel, depending on working conditions.

## • The value of easy maintenance

As maintenance is part of the life of a handling truck, the operator has full access to the engine for easy inspection and maintenance. The quality of design of the MC 30 T minimizes the risk of downtime, extends the lifetime of the truck, and reduces maintenance costs.

**The MC range includes models from 3 to 7 tons.**

## Equipment

### STANDARD EQUIPMENT

- Carriage 1470 mm (FEM III)
- Driver protection
  - Tinted windscreen and rear window
  - Front and rear wipers
  - Front windscreen washer
  - Skai seat
  - Safety belt
- Load shock absorber
- Driver presence detection

### OTHER OPTIONAL EQUIPMENT

#### Mast and accessories :

- Wide choice of forks
- Different carriage sizes
- Load back rest
- Hydraulic outlets for accessories
- Quick-release couplings
- Side-shift carriage
- Fork positioners
- Agricultural bucket
- Rehandling, earth moving or concrete bucket

#### Cab and driver comfort :

- Complete cab with side doors
  - Tinted windscreen and rear window
  - Front and rear wipers
  - Front windscreen washer
  - Skai seat
  - Safety belt
  - Heating
- Air-conditioning
- More comfortable seat (fabric or pneumatic)
- Sliding door bay
- Roof wiper
- Sun visor on roof window and windscreen
- Document holder
- Car radio
- Tilttable steering column

#### Safety :

- Rotating lamp
- Road lighting adjustment
- Internal and external rear-view mirror adjustment
- Working lights (front or rear)

- Back-up alarm buzzer
- Balancing valve on tilt cylinders
- Foam inflation
- Emergency circuit-breaker
- Battery cut-off switch
- Anti-theft systems

#### Difficult environment and medium :

- Differential lock
- Wide choice of tyres (multipurpose, all terrain...)
- Wing extensions
- Cyclonic or self-cleaning prefilter
- Prefilter heightener

#### Cold countries :

- Diesel heater
- Battery for cold conditions

#### Special offers (some examples):

- Specific accessory
- Spark-guard

This equipment described in this leaflet may be standard, optional, or unavailable, depending on the versions. For more details, contact your MANITOU dealer.

# Manitou, material handling world leader

Inventor of the rough terrain forklift truck, Manitou offers today the most comprehensive range to meet all specific handling and personal lifting requirements :

**MANISCOPIC**  
Telescopic trucks

**MANITOU**  
Rough terrain and semi industrial masted trucks

**MANIACCESS**  
Access equipment

**Twisco**  
Compact telescopic handler

**MANIHOE**  
Backhoe/Loader with telescopic boom

**MANITRANSIT**  
Truck mounted forklifts

**MANILOADER**  
Articulated wheeled loaders

**MANILEC**  
Electric pallet trucks and electric stackers

## A network of skilled professionals at your service !

With a network of 600 service and parts centres in more than 120 countries, Manitou provides an efficient after-sales support based on the expertise of thousands of factory trained technicians.

The equipment supplied with each model may differ from that described in this leaflet. For more details, contact your MANITOU dealer.
